Sorry to bother you Michelle but since you're acting PAD I thought you should be aware of this. It appears the HQ press office is in the loop.

Phil and Mary Anne,
Could you help with this request? We may need HQ help on some of these questions. Coordinate with Patty and Mark. Thanks in advance.

Thanks

Subject: questions relating to Section 404(c) and the Pebble project in Alaska

Hi Patti, Dennis and others:

I am working on a story for Sunday's paper about the request from Bristol Bay region groups for EPA to invoke 404c on the Nushagak and Mulchatna drainages.

Unfortunately I hurried home sick today but am still needing to finish reporting before the week is over. I am not working on Friday so I have to finish the story on Saturday. Here are some questions that I hope someone from EPA can assist me with while I am out of the office. Since I'm not working, an e-mail response is preferable but I'm putting my cell phone # in this message. I'll cc my questions to the public affairs office in case Patti is not working tomorrow or if the questions need to go to someone else at EPA. I'm including the DC press office because ONE or TWO of my questions relates to EPA HQ/Lisa Jackson.

- * Has this section of the Clean Water Act been used in Region 10 before? In Alaska? If so, for what projects?
- * What is the EPA administrator's role, if any? Does the administrator (Lisa Jackson) have to approve a notice of proposed determination? Has Lisa Jackson given instructions to Region 10 on how to proceed with the letter from the tribal groups?
- * Are there any drawbacks for invoking 404c? If so, what are they? Has there ever been any prior discussion at EPA for using this provision in relation to Pebble or any other mining project?
- * Has anyone in Alaska ever petitioned EPA to invoke 404c for a disposal site or is this the first time you are aware of it happening?
- * On a related note, did EPA weigh in using 404c with the Conoco Phillips CD-5 Alpine Satellite project? Some nonprofits said today that didn't happen though it was mentioned by Congressman Don Young in a press release.
- * What is involved in an adverse effects analysis - what sort of considerations are weighed - before a notice of proposed determination is filed?
- * If someone petitions EPA to invoke 404c, does EPA have to respond to that request in a certain amount of time? If so, how long?
- * How often - if ever - has EPA used 404c before the permitting process actually began on a 404 permit?

Thanks very much! If you need to reach me Friday, my cell is
